Contribution Tier Selection

I wish to change to the contribution tier I select below with effect from 1 April this year. I authorise deduction of the contributions for this tier from my salary from 1 April this year.

I understand that if I do not make a choice, return the form after 31 March or select more than one cost plan I will be kept in my current contribution tier.

If I am a member of OSPS at more than one employer I understand that all employers will deduct contributions for the new contribution tier from 1 April unless I state otherwise.

I further understand that I will not be able to change contribution tier again until April next year and that tier contributions cannot be adjusted in a previous tax year.

Are you a member of OSPS at more than one employer?
